

Lab tool installation

The suncup[®] lab tool fits easily in standard exhaust equipment.

The tool can be equipped with many options like:

- heating
- cooling
- front- or backside contacts
- wafer rotation
- automatic pH controlling
- light sources
(tubes or crown integration)

Semiconductor application up to 200mm wafer size

The suncup[®] can be customised to different wafer geometries. Beside applications for solar cell formats, models for semiconductor wafers up to 200mm wafer size are available.

The system can be fitted easily in small space.
