

Au recycling from NBT plating bath

NB Semiplate Au 100

NBT offers Au reclaim service for NBT's gold plating bath **NB Semiplate Au 100**.

This service is intended to facilitate the reclaim procedure for the customer by support through NBT as supplier of the bath. We guarantee full transparency of the procedure and cost-effective pricing.

The procedure:

1. Shipping of customer bath to NBT (on customer account)
(NBT supports with label and pick, if desired)
2. Test Au reclaim yield with 250ml sample and align with customer's expectation
3. Depending on the result, acceptance to proceed with the full volume or analysis for double check
4. Reclaim of the Au from the bath and notification about the smelted yield to the customer
5. Customer decision on getting the physical Au (>200g only) or getting reimbursed in Euro.
6. Purity analysis and offer about purchase price based on the Au fixing price
7. Credit note from NBT for the Au yield or invoice from customer according to the pricing below
8. Separate invoice for the fees

Pricing:

1. All shipping cost "as is" (bath, gold bar)
2. Analysis of the bath (certified), if decided, about 200 Euro.
3. Working fee (flat rate)
 - a. Handling and smelting 250 Euro
 - b. 250Euro per 5l bath
4. Purity analysis 60 Euro + insured transport (about 100Euro depending on weight)
5. Purchase price: 99% of Agosi Au fixing price (purchase) on purity yield result
6. Au sales fee: 200 Euro fee for Au sale transaction at NBT
